3. والجلود ، الخ ، PVC ، ABS :المواد .

RFID TAGS

RFID tags are used for identification and tracking. They can be used in many ways, such as for inventory management, access control, and asset tracking. RFID tags are made of a small chip and an antenna. The chip stores information, and the antenna transmits that information to a reader. RFID tags can be used in many different ways, and they are becoming more and more common.

RFID Keyfobs

For access control and other applications
125Khz/13.56Mhz/860~960Mhz chips available
OEM & ODM available

RFID 125Khz 13.56Mhz 860~960Mhz

RFID 125Khz 13.56Mhz 860~960Mhz chips available for access control and other applications. OEM & ODM available. 125Khz 13.56Mhz 860~960Mhz chips available for access control and other applications. OEM & ODM available.
