عبارة عن وحدة تحكم بسيطة في ACM-214A  
الوصول إلى الباب لتطبيق الباب الواحد  
باستخدام هذا الجهاز ، يمكن للمستخدم فتح الباب عبر

# Product Parameters

|                          |                                                  |
|--------------------------|--------------------------------------------------|
| Operating voltage        | DC12V                                            |
| Static current           | $\leq 30\text{mA}$                               |
| Reading card distance    | 3~6cm                                            |
| Record capacity          | 2000                                             |
| Short-circuit protection | Protection responding time $\leq 100\mu\text{s}$ |
| Temperature              | -35°C to 60°C                                    |
| Humidity                 | 10%~90%                                          |
| Electric lock output     | $\leq 30\text{A}$                                |
| Alarm output             | $\leq 20\text{A}$                                |
| Unlock time              | 0~99 s (adjustable)                              |

# Three user modes

Card / PIN / Card+PIN

ACM-214A

ACM-214B

\* Zinc alloy made housing, polished surface, sturdy and durable

# Standalone Metal Access Controller

Smart and Waterproof Design for Outdoor and Indoor Use

Card  
unlock mode

PIN  
unlock mode

Quick  
unlock speed

Wiegand  
output

Anti-vandal  
alarm

# Details

To meet your critical requirements of the product

## Backlit keys

Capacitive touch keypad, illuminated digital button design Easy to find the keypad in a dark night

## External doorbell interface available

With doorbell keys and interface, keys isolated from circuit, can be connected with most doorbells

## Wiegand Interface

With Wiegand output interface, 26 bit Wiegand card number output  
Support 4 digital password, support anti-theft setting

## Waterproof Design

Sealed parts for preventing water and rain

## Anti-theft hexscrew design

This access machine can be used at 35 centigrades below zero Fixed by anti-theft hexagonal screws Provide you with more security

## Smart center processor

High quality chip inside More intelligent programming system Simple operation, full function, stable use

## Our service

### Our service

1. 24 hours online service

2. We can provide you with the latest software and hardware updates.

3. OEM / ODM service

4. We can provide you with the latest software and hardware updates.

5. We can provide you with the latest software and hardware updates.

6. We can provide you with the latest software and hardware updates.

7. We can provide you with the latest software and hardware updates.

8. We can provide you with the latest software and hardware updates.

9. We can provide you with the latest software and hardware updates.

10. We can provide you with the latest software and hardware updates.

11. We can provide you with the latest software and hardware updates.

12. We can provide you with the latest software and hardware updates.

### Our service

- We can provide you with the latest software and hardware updates. ACM Goldbridge is a professional service provider.
