Guidelines for Changing Locks

1 Door Lock Opening Direction

Tip : How to choose the lock opening direction?

Standing outside the door, where is the hinge mounted, which side is open

A \ (Right push) — The hinge is mounted on the Right side of the door frame and push the door

B \ (Right pull) — The hinge is mounted on the Right side of the door frame and pull the door

C \ (Left pull) — The hinge is mounted on the Left side of the door frame and pull the door

D \ (Left push) — The hinge is mounted on the Left side of the door frame and push the door

2 Measuring related dimensions

Friendly tip: For changing locks, must measure these 3 place as below

Measure door thickness

Measure guide piece length

Measure guide piece thickness

3 Choose guide piece model

A . Right angle double hole guide piece

B . Right angle single hole guide piece

C . Rounded double hole guide piece

D . Rounded single hole guide piece

Friendly tip:

The standard package one is "B",

if need other choice, pls contact supplier

4 Pls inform the related data

Door lock open direction	☐ Left push ☐ Left pull ☐ Right push ☐ Right pull
Door thickness	_____mm
Mortise guide-piece length	_____mm
Mortise guide-piece thickness	_____mm

Friendly tip :

If your door is customized one, only need to inform the door thickness and opening direction .
