

134.2K CARD READER

QUICK RESPONSE IDENTIFICATION

NONCONTACT RFID, 200 MHz (134.2K)

01

SUPPORT MULTIPLE TAGS

Support EMV, FDX-A, FDX-B (ISO15693)

MULTI-PROTOCOL SUPPORT
AND
STRONG COMPATIBILITY

02

READING DISTANCE

Static reading distance 0-25cm (adjusting light)

03

LED INDICATOR

2 color LED indicator and three reflection of machine operating conditions

- STATUS INDICATOR
- POWER INDICATOR

04

BUZZER

BUILT-IN BUZZER, THE SOUND BUZZER AND BEEP

05

COMMUNICATION INTERFACE

SUPPORT USB

SPECIFICATION

Model	134.2K
Frequency	200MHz
Protocol	EMV, FDX-A, FDX-B (ISO15693)
Interface	USB
Power	5V/100mA
Dimensions	200mm x 60mm x 15mm
Weight	15g
Material	ABS
Color	Black
Package	100PCS

PRODUCTS REAL SHOT

SCENE APPLICATION

RFID Unmanned Supermarket Management

This application features a central image of a supermarket aisle with produce. Surrounding it are icons for various RFID components: a yellow rectangular tag, a black square tag, a roll of white tape, and a light blue rectangular tag.

RFID Vehicle Tracking Management

This application features a central image of a car at a toll booth. Surrounding it are icons for various RFID components: two white rectangular tags, a black square tag with a white logo, and a roll of white tape.

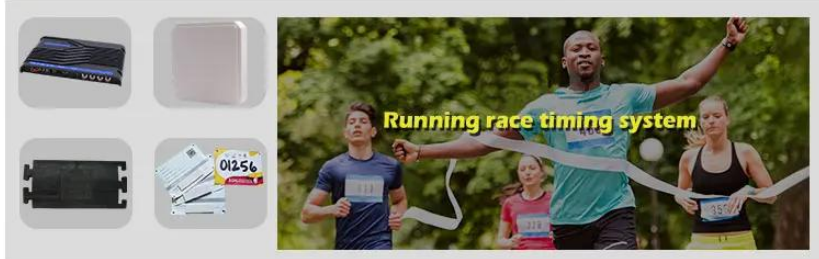

Trash Can management system

This application features a central image of a yellow autonomous refuse truck. Surrounding it are icons for various RFID components: a white rectangular tag, a white square tag, a white rectangular tag, and a green and black component.

RFID books management

This application features a central image of a library. Surrounding it are icons for various RFID components: a black square tag, a mobile phone with an antenna, a white rectangular tag, and a white cylindrical tag.

Running race timing system

This application features a central image of runners at a race. Surrounding it are icons for various RFID components: a black rectangular tag, a white square tag, a black rectangular tag, and a white tag with the number 01256.

RFID laundry management

This application features a central image of a laundry worker. Surrounding it are icons for various RFID components: a black rectangular tag, a white square tag, a mobile phone with an antenna, and a white fan-shaped tag.

RFID Warehouse Inventory Management

This application features a central image of a warehouse with a forklift. Surrounding it are icons for various RFID components: a black rectangular tag, a monitor displaying a grid, a white square tag, and a white cylindrical tag.
