

Descripción del producto

Micro modificado para requisitos particulares de alta calidad impermeable de silicona RFID control

Ventajas:

1. Resistente al polvo, suciedad y humedad.
2. Posibilidad de combinar dos tecnologías en un llavero.
3. Adecuado para uso interior y exterior
4. Se encuentra disponible una atractiva paleta de colores al igual que un servicio de codificación competente.
5. Personalización: el llavero rfid se puede personalizar mediante impresión a todo color o grabado láser de larga duración, utilizando su logotipo, un número o cualquier motivo gráfico.

colloreresponsibilities
to the community

Identification of the following variables:
 1. **Demographics:** Age, gender, education level, income, marital status.
 2. **Health Status:** Current health conditions, chronic diseases, mental health status, physical activity levels.
 3. **Lifestyle Factors:** Diet, alcohol consumption, smoking status, sleep patterns.
 4. **Social Support:** Family size, social network, community involvement.
 5. **Environmental Factors:** Living conditions, access to healthcare, pollution levels.
 6. **Genetic Factors:** Family history of diseases, genetic predispositions.
 7. **Behavioral Factors:** Risk-taking behaviors, adherence to medical advice, health insurance status.
 8. **Psychological Factors:** Stress levels, coping mechanisms, mental health history.
 9. **Healthcare Access:** Proximity to healthcare facilities, insurance coverage, frequency of medical visits.
 10. **Health Outcomes:** Morbidity rates, mortality rates, quality of life scores, hospitalization rates.
 11. **Interventions:** Types of medical treatments, lifestyle changes, community programs.
 12. **Healthcare Costs:** Out-of-pocket expenses, insurance premiums, government subsidies.
 13. **Healthcare Quality:** Patient satisfaction, provider competence, wait times, accreditation status.
 14. **Healthcare Equity:** Disparities in health outcomes across different demographic groups.
 15. **Healthcare Policy:** Government regulations, funding allocations, public health initiatives.
 16. **Healthcare Research:** Clinical trials, epidemiological studies, health technology innovations.
 17. **Healthcare Education:** Public health campaigns, patient education programs, medical training for healthcare providers.
 18. **Healthcare Infrastructure:** Availability of medical equipment, healthcare facilities, transportation services.
 19. **Healthcare Governance:** Regulatory bodies, accreditation agencies, professional associations.
 20. **Healthcare Innovation:** Telemedicine, artificial intelligence, personalized medicine, digital health tools.
 21. **Healthcare Ethics:** Bioethics, patient autonomy, informed consent, confidentiality.
 22. **Healthcare Communication:** Patient-provider communication, health communication campaigns, digital health communication.
 23. **Healthcare Evaluation:** Health impact assessments, cost-effectiveness analysis, patient-centered outcomes research.
 24. **Healthcare Monitoring:** Surveillance systems, data collection, health status monitoring.
 25. **Healthcare Planning:** Health needs assessment, strategic planning, resource allocation.
 26. **Healthcare Implementation:** Program rollout, implementation science, change management.
 27. **Healthcare Sustainability:** Long-term viability of healthcare systems, environmental sustainability, financial sustainability.
 28. **Healthcare Resilience:** Ability of healthcare systems to withstand shocks and stresses, disaster preparedness.
 29. **Healthcare Innovation:** Digital health, artificial intelligence, personalized medicine, precision medicine.
 30. **Healthcare Equity:** Addressing health disparities, social determinants of health, health justice.
 31. **Healthcare Quality:** Patient safety, clinical excellence, patient-centered care, continuous improvement.
 32. **Healthcare Access:** Universal health coverage, equitable distribution of resources, community-based health services.
 33. **Healthcare Governance:** Transparent decision-making, accountability, stakeholder engagement.
 34. **Healthcare Research:** Evidence-based practice, translational research, health technology assessment.
 35. **Healthcare Education:** Lifelong learning, professional development, patient education.
 36. **Healthcare Infrastructure:** Robust healthcare systems, digital infrastructure, physical infrastructure.
 37. **Healthcare Ethics:** Ethical frameworks, bioethics, patient autonomy.
 38. **Healthcare Communication:** Effective communication strategies, patient engagement, health communication.
 39. **Healthcare Evaluation:** Rigorous evaluation methods, health impact assessment, cost-effectiveness analysis.
 40. **Healthcare Monitoring:** Real-time monitoring, data-driven decision-making, health status tracking.
 41. **Healthcare Planning:** Strategic vision, health needs assessment, resource planning.
 42. **Healthcare Implementation:** Effective implementation strategies, change management, program rollout.
 43. **Healthcare Sustainability:** Sustainable healthcare systems, environmental stewardship, financial viability.
 44. **Healthcare Resilience:** Resilient healthcare systems, disaster preparedness, crisis response.
 45. **Healthcare Innovation:** Innovative healthcare solutions, digital health, artificial intelligence.
 46. **Healthcare Equity:** Promoting health equity, addressing social determinants, health justice.
 47. **Healthcare Quality:** High-quality healthcare, patient safety, clinical excellence.
 48. **Healthcare Access:** Ensuring access to healthcare, universal health coverage, equitable distribution.
 49. **Healthcare Governance:** Effective governance structures, transparent decision-making, accountability.
 50. **Healthcare Research:** Advancing healthcare research, evidence-based practice, translational research.
 51. **Healthcare Education:** Enhancing healthcare education, professional development, patient education.
 52. **Healthcare Infrastructure:** Strengthening healthcare infrastructure, digital infrastructure, physical infrastructure.
 53. **Healthcare Ethics:** Upholding healthcare ethics, bioethics, patient autonomy.
 54. **Healthcare Communication:** Improving healthcare communication, patient engagement, health communication.
 55. **Healthcare Evaluation:** Conducting healthcare evaluation, health impact assessment, cost-effectiveness analysis.
 56. **Healthcare Monitoring:** Implementing healthcare monitoring, real-time monitoring, data-driven decision-making.
 57. **Healthcare Planning:** Developing healthcare plans, strategic vision, health needs assessment.
 58. **Healthcare Implementation:** Executing healthcare implementation, effective implementation strategies, change management.
 59. **Healthcare Sustainability:** Achieving healthcare sustainability, sustainable healthcare systems, environmental stewardship.
 60. **Healthcare Resilience:** Building healthcare resilience, resilient healthcare systems, disaster preparedness.
 61. **Healthcare Innovation:** Fostering healthcare innovation, innovative healthcare solutions, digital health.
 62. **Healthcare Equity:** Promoting healthcare equity, addressing social determinants, health justice.
 63. **Healthcare Quality:** Ensuring healthcare quality, high-quality healthcare, patient safety.
 64. **Healthcare Access:** Improving healthcare access, universal health coverage, equitable distribution.
 65. **Healthcare Governance:** Strengthening healthcare governance, effective governance structures, transparent decision-making.
 66. **Healthcare Research:** Advancing healthcare research, evidence-based practice, translational research.
 67. **Healthcare Education:** Enhancing healthcare education, professional development, patient education.
 68. **Healthcare Infrastructure:** Strengthening healthcare infrastructure, digital infrastructure, physical infrastructure.
 69. **Healthcare Ethics:** Upholding healthcare ethics, bioethics, patient autonomy.
 70. **Healthcare Communication:** Improving healthcare communication, patient engagement, health communication.
 71. **Healthcare Evaluation:** Conducting healthcare evaluation, health impact assessment, cost-effectiveness analysis.
 72. **Healthcare Monitoring:** Implementing healthcare monitoring, real-time monitoring, data-driven decision-making.
 73. **Healthcare Planning:** Developing healthcare plans, strategic vision, health needs assessment.
 74. **Healthcare Implementation:** Executing healthcare implementation, effective implementation strategies, change management.
 75. **Healthcare Sustainability:** Achieving healthcare sustainability, sustainable healthcare systems, environmental stewardship.
 76. **Healthcare Resilience:** Building healthcare resilience, resilient healthcare systems, disaster preparedness.
 77. **Healthcare Innovation:** Fostering healthcare innovation, innovative healthcare solutions, digital health.
 78. **Healthcare Equity:** Promoting healthcare equity, addressing social determinants, health justice.
 79. **Healthcare Quality:** Ensuring healthcare quality, high-quality healthcare, patient safety.
 80. **Healthcare Access:** Improving healthcare access, universal health coverage, equitable distribution.
 81. **Healthcare Governance:** Strengthening healthcare governance, effective governance structures, transparent decision-making.
 82. **Healthcare Research:** Advancing healthcare research, evidence-based practice, translational research.
 83. **Healthcare Education:** Enhancing healthcare education, professional development, patient education.
 84. **Healthcare Infrastructure:** Strengthening healthcare infrastructure, digital infrastructure, physical infrastructure.
 85. **Healthcare Ethics:** Upholding healthcare ethics, bioethics, patient autonomy.
 86. **Healthcare Communication:** Improving healthcare communication, patient engagement, health communication.
 87. **Healthcare Evaluation:** Conducting healthcare evaluation, health impact assessment, cost-effectiveness analysis.
 88. **Healthcare Monitoring:** Implementing healthcare monitoring, real-time monitoring, data-driven decision-making.
 89. **Healthcare Planning:** Developing healthcare plans, strategic vision, health needs assessment.
 90. **Healthcare Implementation:** Executing healthcare implementation, effective implementation strategies, change management.
 91. **Healthcare Sustainability:** Achieving healthcare sustainability, sustainable healthcare systems, environmental stewardship.
 92. **Healthcare Resilience:** Building healthcare resilience, resilient healthcare systems, disaster preparedness.
 93. **Healthcare Innovation:** Fostering healthcare innovation, innovative healthcare solutions, digital health.
 94. **Healthcare Equity:** Promoting healthcare equity, addressing social determinants, health justice.
 95. **Healthcare Quality:** Ensuring healthcare quality, high-quality healthcare, patient safety.
 96. **Healthcare Access:** Improving healthcare access, universal health coverage, equitable distribution.
 97. **Healthcare Governance:** Strengthening healthcare governance, effective governance structures, transparent decision-making.
 98. **Healthcare Research:** Advancing healthcare research, evidence-based practice, translational research.
 99. **Healthcare Education:** Enhancing healthcare education, professional development, patient education.
 100. **Healthcare Infrastructure:** Strengthening healthcare infrastructure, digital infrastructure, physical infrastructure.
 101. **Healthcare Ethics:** Upholding healthcare ethics, bioethics, patient autonomy.
 102. **Healthcare Communication:** Improving healthcare communication, patient engagement, health communication.
 103. **Healthcare Evaluation:** Conducting healthcare evaluation, health impact assessment, cost-effectiveness analysis.
 104. **Healthcare Monitoring:** Implementing healthcare monitoring, real-time monitoring, data-driven decision-making.
 105. **Healthcare Planning:** Developing healthcare plans, strategic vision, health needs assessment.
 106. **Healthcare Implementation:** Executing healthcare implementation, effective implementation strategies, change management.
 107. **Healthcare Sustainability:** Achieving healthcare sustainability, sustainable healthcare systems, environmental stewardship.
 108. **Healthcare Resilience:** Building healthcare resilience, resilient healthcare systems, disaster preparedness.
 109. **Healthcare Innovation:** Fostering healthcare innovation, innovative healthcare solutions, digital health.
 110. **Healthcare Equity:** Promoting healthcare equity, addressing social determinants, health justice.
 111. **Healthcare Quality:** Ensuring healthcare quality, high-quality healthcare, patient safety.
 112. **Healthcare Access:** Improving healthcare access, universal health coverage, equitable distribution.
 113. **Healthcare Governance:** Strengthening healthcare governance, effective governance structures, transparent decision-making.
 114. **Healthcare Research:** Advancing healthcare research, evidence-based practice, translational research.
 115. **Healthcare Education:** Enhancing healthcare education, professional development, patient education.
 116. **Healthcare Infrastructure:** Strengthening healthcare infrastructure, digital infrastructure, physical infrastructure.
 117. **Healthcare Ethics:** Upholding healthcare ethics, bioethics, patient autonomy.
 118. **Healthcare Communication:** Improving healthcare communication, patient engagement, health communication.
 119. **Healthcare Evaluation:** Conducting healthcare evaluation, health impact assessment, cost-effectiveness analysis.
 120. **Healthcare Monitoring:** Implementing healthcare monitoring, real-time monitoring, data-driven decision-making.
 121. **Healthcare Planning:** Developing healthcare plans, strategic vision, health needs assessment.
 122. **Healthcare Implementation:** Executing healthcare implementation, effective implementation strategies, change management.
 123. **Healthcare Sustainability:** Achieving healthcare sustainability, sustainable healthcare systems, environmental stewardship.
 124. **Healthcare Resilience:** Building healthcare resilience, resilient healthcare systems, disaster preparedness.
 125. **Healthcare Innovation:** Fostering healthcare innovation, innovative healthcare solutions, digital health.
 126. **Healthcare Equity:** Promoting healthcare equity, addressing social determinants, health justice.
 127. **Healthcare Quality:** Ensuring healthcare quality, high-quality healthcare, patient safety.
 128. **Healthcare Access:** Improving healthcare access, universal health coverage, equitable distribution.
 129. **Healthcare Governance:** Strengthening healthcare governance, effective governance structures, transparent decision-making.
 130. **Healthcare Research:** Advancing healthcare research, evidence-based practice, translational research.
 131. **Healthcare Education:** Enhancing healthcare education, professional development, patient education.
 132. **Healthcare Infrastructure:** Strengthening healthcare infrastructure, digital infrastructure, physical infrastructure.
 133. **Healthcare Ethics:** Upholding healthcare ethics, bioethics, patient autonomy.
 134. **Healthcare Communication:** Improving healthcare communication, patient engagement, health communication.
 135. **Healthcare Evaluation:** Conducting healthcare evaluation, health impact assessment, cost-effectiveness analysis.
 136. **Healthcare Monitoring:** Implementing healthcare monitoring, real-time monitoring, data-driven decision-making.
 137. **Healthcare Planning:** Developing healthcare plans, strategic vision, health needs assessment.
 138. **Healthcare Implementation:** Executing healthcare implementation, effective implementation strategies, change management.
 139. **Healthcare Sustainability:** Achieving healthcare sustainability, sustainable healthcare systems,

presentacion de producto

Servicio personalizado especial por su elección:

1. Hay diferentes fichas disponibles;
2. Impresión: color liso, serigrafía, impresión de LOGO, impresión en offset, etc .;
3. Material: silicona, ABS, PVC, cuero, etc.

Mas opciones.

El llavero de silicona, también llamado etiquetas, llavero, llavero, transpondedor, es una solución más conveniente y moderna para las aplicaciones de control de acceso / identificación de personal. Están hechas de un material de silicona duradero, que hace que el llavero sea resistente al agua y al polvo.

Para proporcionar un producto de mayor valor agregado, el llavero es totalmente compatible con la impresión de logotipo, el grabado láser y la impresión de números. La etiqueta está disponible con una amplia gama de tecnología RFID, desde baja frecuencia 125 KHz hasta alta frecuencia 13.56 MHz, por lo que proporciona una solución óptima para diferentes aplicaciones RFID. Diferentes colores y más estilos para su elección. Aceptamos la fabricación OEM de llavero inteligente RFID.

Aplicación del producto

Solicitud de llavero RFID

El llavero es adecuado para Sistemas de bloqueo inteligente, control de acceso, registro de horarios de trabajo, pago sin contacto o sistemas de emisión de boletos de transporte público.. Y el llavero tiene un anillo de metal, por lo que se puede unir a un llavero.

APPLICATION

Más llavero ABS

Excepto el ABS003, nuestra fábrica también puede fabricar el colector ABS en otro diseño de forma. Arriba están nuestros otros 10 diseños diferentes. Puede hacer clic en la imagen para ver más detalles.

Embalaje y envío

Embalaje:

200 unids por bolsa y 10 bolsas por caja. El tamaño estándar de la caja de embalaje es: 26X22X23 cm, peso: 13 kg

O según los requisitos del cliente.

200 unids por bolsa.

Hay 200 unidades de llavero en una bolsa.

O según los requisitos del cliente.

1000 unids por caja.

5 bolsas en una caja de cartón, total 1000 unids.

El tamaño estándar de la caja de embalaje es:

49X25X25 cm, peso: 18 kg

Nuestro servicio

- 1, cualquier consulta será contestada dentro de 24 horas
- 2, fabricante profesional y proveedor, Bienvenido a visitar nuestro sitio web y nuestra fábrica
- 3, OEM / ODM disponible
- 4, alta calidad, diseño de fashion, razonable y & precio competitivo, plazo de ejecución rápido
- 5, servicio post-venta:
 - 1), todos los productos habrán sido estrictamente controlados en casa antes de embalar
 - 2), todos los productos serán embalados bien antes de enviar
 - 3), todos nuestros productos tienen una garantía de 2-3 años si el daño no es causado por humanos
- 6, entrega más rápida : Alrededor de 1 ~ 5 días para orden de la muestra, 7 ~ 30 días para la orden a granel
- 7, pago: Puede pagar el pedido a través de: T / T, Western Union, Paypal, Ali trade assurance
- 8, envío: Tenemos una fuerte cooperación con DHL, FEDEX, TNT, UPS, EMS, Forwarder por SEA y por AIR, También puede elegir su propio promotor de envíos.

Preguntas más frecuentes

Q: 1. ¿Cómo puedo hacer un pedido?

A: Por favor, indique su requerimiento por correo. Luego, le enviaremos la oferta lo antes posible, después de la confirmación del pedido, organizaremos la producción lo antes posible.

Q: 2. ¿Qué pasa con el pago y envío?

A: Garantía de comercio y T / T, Paypal, Western Union.

Los clientes pueden elegir por mar, aire o expreso (DHL, FedEx, TNT UPS, etc.)

Q: 3. ¿Cómo puedo obtener una muestra para comprobar su calidad?

A: podríamos proporcionarle la muestra gratuita, y el costo de flete pagado por usted.

Q: 4. ¿Cuánto tiempo puedo esperar para obtener las muestras?

A: depende de la cantidad Normalmente 3-7 días para 5000pcs y 7-15 días para 100,000pcs

Q: 5. ¿Se pueden personalizar sus productos?

R: Casi todos sus productos están personalizados, incluyendo la materia, el tamaño, el grosor y la impresión. Las órdenes del OEM son altamente agradables

Q: 6. ¿Eres una empresa comercial o una fábrica?

Somos uno de los mayores fabricantes de tarjetas RFID / etiquetas NFC / RFID keybod / pulsera RFID,

lector de RFID y productos de control de acceso en China desde hace más de 20 años.
