Automatic locking
when the door is closed

A black smart door lock is mounted on a wooden door. The lock features a numeric keypad and a fingerprint sensor. A blue speech bubble with the text '5#' and 'Open mode' is positioned next to the keypad. The background of the right side of the image shows a person in a dark suit and red shoes, partially obscured by a dark overlay.

Office use

Open mode

You can open the door by pressing the handle directly. When you close the open mode, you need an authorized passcode or fingerprint to unlock the door.
