#### PRODUCTS REAL SHOT

# SCENE APPLICATION

**RFID Unmanned Supermarket Management**

This application block features a central image of a supermarket aisle with produce. To the left, there are four small icons: a yellow RFID tag, a black square, a roll of white tape, and a light blue square.

**RFID Vehicle Tracking Management**

This application block features a central image of a car at a toll booth. To the right, there are four small icons: two white rectangular devices, a black device with a white logo, and a roll of white tape.

**Trash Can management system**

This application block features a central image of a yellow autonomous refuse truck. To the left, there are four small icons: a white rectangular device, a white square, a white rectangular device, and a green and black component.

**RFID books management**

This application block features a central image of a library. To the right, there are four small icons: a black device, a smartphone with an antenna, a white rectangular device, and a roll of white tape.

**Running race timing system**

This application block features a central image of runners at a race. To the left, there are four small icons: a blue and black device, a white square, a black device, and a race bib with the number 01256.

**RFID laundry management**

This application block features a central image of a laundry worker. To the right, there are four small icons: a black device, a white square, a smartphone with an antenna, and a white fan-like device.

**RFID Warehouse Inventory Management**

This application block features a central image of a warehouse with a forklift. To the left, there are four small icons: a black device, a monitor displaying a grid, a white square, and a roll of white tape.
