Parking Space Lock Installation Guide

Installation tools

Geological requirements: The installation ground must be level.

If your parking space is on earth, it needs to be poured with cement to the size of the parking space lock, and it can be installed.

Installation requirements: The parking space lock is easy to install. Our company does not provide door-to-door installation for the time being. If you have strong hands-on skills, you can borrow tools to install it yourself.

1. Mark the location where the screws are to be installed on the installation floor.

2. Drill a hole for controllable screw installation at the mark.

3. Use a hammer to hammer the screw into the drilled hole.

4. Tighten the screws with a suitable wrench
