13.56Mhz F08 Chip RFID Label Classic 1k Smart Tag Sticker IC Wet Inlay

RFID technology provides simplicity for Logistics, Identification, Assets Tracking, Inventory Management, even in E-Payment, E-ticket etc with a low cost paper label tag. It based on existing contactless infrastructure around the world that is already in use by millions of people on a daily basis, it's actually a technology that makes peoples' lives easier. And our RFID NFC labels can be custom made and programmed to match your system.

Products Show

* Protocol:ISO14443A

* Frequency:13.56MHZ

* Type Chip:NFC Ntag 213

* Protocol:ISO14443A

* Memory:144 byte

* Material:Adhesive paper

* Color:White

* Diameter:25mm

* Work Type:Read and Write

* Support phone:All NFC phone

* Package:50pcs/Lot

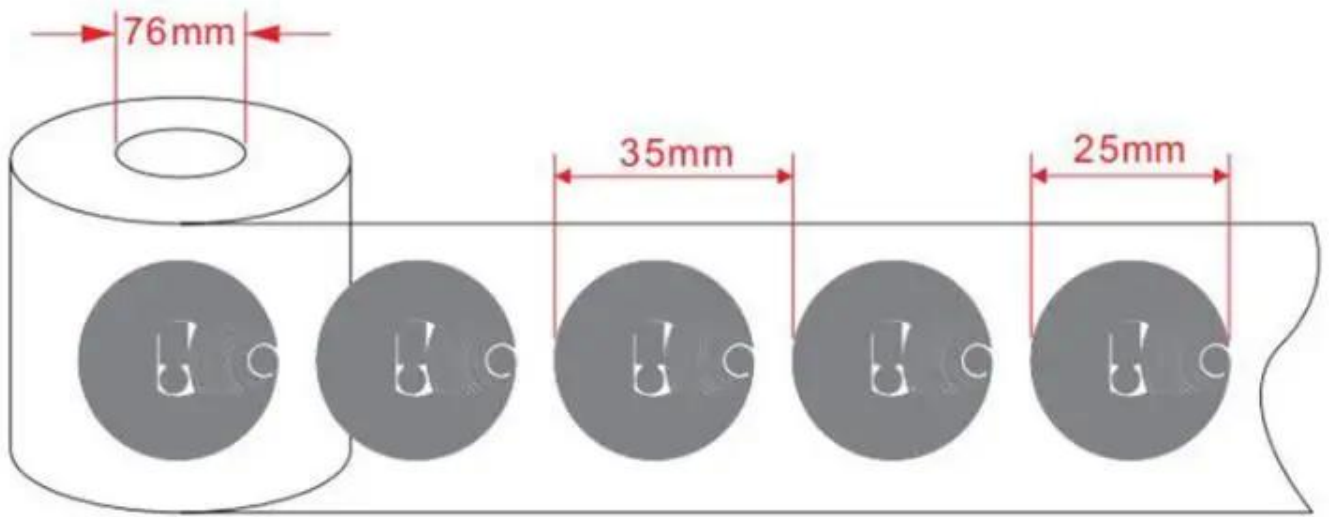

Application: books library, door control access , warehouse asset inventory ,school students , sports club ,

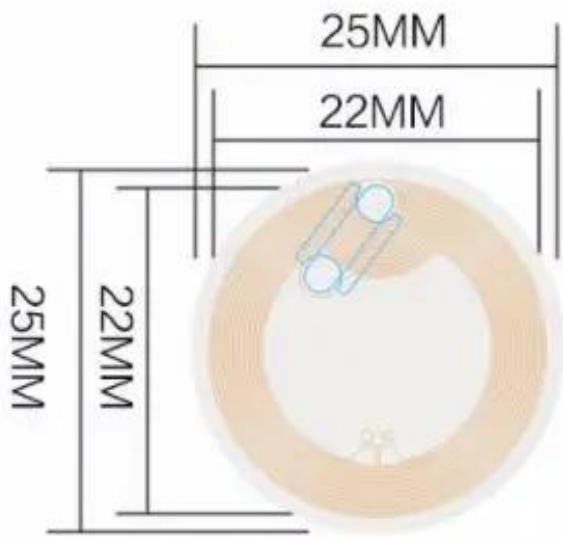

clothing, warehouse, vehicle car, shop store, etc.management
