Application

Application of RFID UHF Library tag

RFID Library Book Labels or Tags are widely used for automatic data capture in library applications (i.e., academic, public, corporate, and other special applications). RFID technology provides an enhanced user experience for library applications and in related industries that require item tracking. For the library market, these tags provide convenient solutions for self check-in/check-out, RFID gate, library article return, product sorting, theft prevention, and queue busting.
