Products Feature

automatic door opener is low energy automatic with a swing door opener that is activated by push buttons. This system operates in
both automatic and manual modes, it makes the electronic door opener and closer highly adapts to voltage fluctuations between 110
or 220VAC ±10%, More energy-saving and durable than an ordinary single input voltage.
The simple yet secure system for areas such as offices, hospitals, elderly homes, banks, commercial locations, and much more.

It supports 2ways working mode:
1. standalone access controller, connect it to power, power on, then we could open it by remote control and close it automatically
2. Connect it with RFID door access control systems, Enter by Face, RFID, Pincode or Finger, and exit Non-

touch button.
