RFID silicone Wristband the Application:

Our fabric and cloth RFID wristbands have been used widely at festivals and events around the world. The wristbands feature an RFID tag, enabling compatibility with any RFID event solutions, including access

control, cashless payments and social media integration. It can enhance and expand your contactless offering by targeting new customer segments, such as young people and sports fans, and capitalizing on business opportunities in emerging sectors including stadiums and corporate events.

RFID/NFC fabric wristband is an anti-removal wristband that has the chip integrated into a PVC plate, and it is reusable after cutting the watchstrap. The size of PVC plate and watchstrap length can be chosen directly by the customer for high product customization; the color of the watchstrap is customizable too.

And Various size for you choose!
