## Product Advantages

1. Wake up tags:the tag which only be waked up can communicate with reader, prevent the disturbing from other tags, ensure the correct information between reader and system's tag.
2. Read data:it can get the ID number of tag, and also get the data which in the specify area, multi tags reading will be available.
3. Write data: can write data in specify tag's storage area.
4. Can connect with the device which has W26 and W34 interface, no need to develop.

5. Communicate with controller or PC, that can get the data; provide SDK development kit, user can develop it.
