## Product Show

Special Customized Service By Your Choice:

1. There different chips available;
2. Printing: Plain color, Silkscreen, LOGO printing, off-set printing, etc;
3. Material: Silicone, ABS, PVC, Leather, etc.

## More Options.

Silicone Keyfob, also called key tags, keychain, keyring, transponder, it is a more convenient and fashion solution for the access control/ staff identification applications. They are made of durable silicone material, which makes the keyfob water and dust proof.

To provide more value added product, the keychain are fully supported on the Logo printing, laser engrave, and number printing. The tag are available with broad range of RFID technology, from low frequency 125KHz to high frequency 13.56MHz, thus it provides an optimal solution for different RFID applications. Different colors and more styles for your choice. We accept the OEM manufacturing of RFID smart key fob.

## Product Application

### RFID Keyfob Application

The keyfob is well suited for intelligent lock systems, access control, recording of working times, contactless payment or public transport ticketing systems. And the keyfob has a ring out of metal, so it can be attached at a key ring.

## APPLICATION

### More ABS keyfob

Except the ABS003 , our factory also can make the ABS eyfob in other shape design . Above are our other 10 different design .You can click above picture to find more detail .
