More Images of RFID NFC Sticker Label

White RFID Sticker Label 30MM Round

White RFID Sticker Label 30MM Round

Main Features of RFID NFC Sticker Label

Compared with bar/ QR code, RFID label/ sticker owns more safety in using based on its technology of radio frequency identification and various chips. With dynamic data and duly communication, fast reading speed (UHF can even read multiple labels at one time), big data memory, long lifespan, wide application and flexible reading, it is adopted in various industries of our live.

- Fast scan,support to scan single or muti labels meanwhile

- Mini size
- Strong anti-pollution and durability
- Long lifespan
- Big memory
- High security

What's NFC and NFC sticker ?

NFC (near field communication) is a wireless technology which allows for the transfer of data such as text or numbers between two NFC enabled devices. NFC tags, for example stickers or wristbands, contain small microchips with little aerials which can store a small amount of information for transfer to another NFC device, such as a mobile phone.

RFID NFC Sticker Applications

Widely used in Miro Mobile Payment, NFC Business Card, Promotion Advertisement, NFC Poster, NFC access control of E-Ticket; NFC App starting; NFC Wifi, NFC Bluetooth starting etc.
