Product Description

Made In China Access Control NFC Tag Radio Frequency Identification MIFARE Classic 1K Hotel Key Rfid Wood Card

What's the wood smart RFID Card Feature?

Radio-frequency identification (RFID) uses electromagnetic fields to automatically identify and track tags attached to objects. The tags contain electronically-stored information. Passive tags collect energy from a nearby RFID reader's interrogating radio waves.

Here at chuangxinjia smart technology factory ,we can supply and customized all shape of rfid wood card based on your design file .We have 6 different wood materials ,Laser printing /Silk printing QR ,Barcode ,business information on the wood rfid card .

RFID Chip

Part of Our HF Chip, for more RFID chip (LF, HF, UHF, and dual frequency pls contact us freely)
