

Product Description

The RFID Dsic Tag is designed as a tag for the warehouse management, and- property tracking, RFID Coin tag can be install on the pallet, the cartons, the- machine etc. The Token is made of ABS house be filled epoxy and manufactured-with Ultrasonic welding technics, It would made the tag complete waterproof.

RFID Patrol Tag:

- ◆Made of high quality ABS plastic material for optimum durability. It is effective against moisture and water. If you accidentally put it in your pocket, you can use it properly.
- ◆Professional manufacturing, stable performance, high precision and good reliability. Data can be stored for up to 5 years.
- ◆It works by installing a series of RFID tags along the route (each tag has a unique global identification number) and allowing patrol personnel to read the tag using a handheld reader.
- ◆The digital tag is recorded along with each associated tag and then uploaded via the communications adapter for processing and verification by the computer.
- ◆The results are displayed on the screen, printed or emailed to examine the manager's performance and patrol personnel's data (attendance, patrol location, timeliness, accidents, etc.).
