Automatic locking
when the door is closed

A black smart door lock is mounted on a wooden door. The lock features a numeric keypad and a fingerprint sensor. A blue speech bubble with the text '5#' and 'Open mode' is positioned next to the keypad. The background of the entire image is a dark, moody photograph of a person in an office setting, wearing a dark jacket and a red bag, with their back to the camera.

Office use

Open mode

You can open the door by pressing the handle directly. When you close the open mode, you need an authorized passcode or fingerprint to unlock the door.
