- Gas cylinder tracking
- Asset management
- Baggage tagging
- lifting equipment
- Logistics,warehouse management
- Inventory management
- Asset tracking
- Track tools,IT equipment,electronic devices
- Container,trucks,vehicles
- More

## Product Description

### **UHF 860-960Mhz Seal RFID Tag for Assets tracking management**

Usage: The metal lock body adopts the steel ball diagonal pull structure, and the seal can be directly pierced and pulled. The seal is a one-time seal. After pulling, it will leave traces. Each seal tag has a unique serial number, which is safe, secure and easy to be locked. It cannot be used again after using it once.

Application: anti-counterfeiting and secrecy for network cabling, finance, department stores, power, petrochemical, shipping, gardening and other industries.
