QR code Scanner for

Mini USB 1D 2D QR Code Bar Code Reader RS232
Embedded Door Lock Barcode Scanner Module for
Turntile

- High-performance
- Readily accessible for QR code
- High quality tempered glass material
- Optional interface, such as wiegand26, TCP/IP, RS485;
- LED indicates the status of the device
- Available SDK for secondary development

Imagens Detalhadas

Futuro:

- Leitor de QR e RFID de controle de acesso com saída Wiegand
- Tensão de entrada: entrada de tensão ampla DC 4-15V
- Painel de vidro temperado de alta qualidade
- Adequado para todos os tipos de sistema de controle de acesso à porta

- Leitura de alta velocidade e distância de leitura de 0-20 cm
- LED indica o status do dispositivo
- SDK disponível para desenvolvimento secundário

ABOUT OUR FACTORY

Established in 1999, Shenzhen Goldbridge has witnessed the technological innovation from rfid card to rfid tag, the overall change of market products in the past 20 years, and registered "Shenzhen Goldbridge Industrial Co., Ltd." in 1999.

At present, Goldbridge has developed into a National High-Tech Enterprise, which is specialized in the integration of production, market and research. Starting from the PVC cards and RFID cards factory with only 66 workers, Goldbridge has accomplished the successful transition from traditional manufacturing industry to IOT technology enterprise (RFID technology development).

With the accumulation of dozens of software copyrights and utility new inventions and patents, Goldbridge has been rewarded as "National High-Tech Enterprise", "Shenzhen High-Tech Enterprise", and has become an integrated enterprise which focuses on research, production and market. Meanwhile, by adopting the "Military + School + Family" corporate culture concept, accompanied by the continuous innovation of business model and marketing model, plus the B2B, B2C platform and excellent sales team, Goldbridge sells its products all over the world.
