Guidelines for Changing Locks

1 Door Lock Opening Direction

Tip : How to choose the lock opening direction?

Standing outside the door, where is the hinge mounted, which side is open

- A \ (Right push) — The hinge is mounted on the Right side of the door frame and push the door
- B \ (Right pull) — The hinge is mounted on the Right side of the door frame and pull the door
- C \ (Left pull) — The hinge is mounted on the Left side of the door frame and pull the door
- D \ (Left push) — The hinge is mounted on the Left side of the door frame and push the door

2 Measuring related dimensions

Friendly tip: For changing locks, must measure these 3 place as below

3 Choose guide piece model

- A . Right angle double hole guide piece
- B . Right angle single hole guide piece
- C . Rounded double hole guide piece
- D . Rounded single hole guide piece

Friendly tip:
 The standard package one is "B",
 if need other choice, pls contact supplier

4 Pls inform the related data

Door lock open direction	☐ Left push ☐ Left pull ☐ Right push ☐ Right pull
Door thickness	_____mm
Mortise guide-piece length	_____mm
Mortise guide-piece thickness	_____mm

Friendly tip :

If your door is customized one,
 only need to inform the
 door thickness and opening direction .
