

описание продукта

К9 Настенная автоматическая машина для дезинфекции для измерения температуры Дозатор для дезинфицирующего средства для рук с термометром

ЖК-цифровой дисплей с подсветкой, четкое чтение. С оптическим предупреждением об обнаружении неисправности и оптическим предупреждением о ненормальной температуре. Инновационный высокотехнологичный инфракрасный датчик позволяет быстро и безопасно выполнять измерения за 500 миллисекунд.

Функция предупреждения о лихорадке, когда температура ненормальная, красная подсветка и зуммер предупредят пациента.

Преобразование единиц температуры по Фаренгейту или Цельсию удобно использовать для разных людей. светящийся инфракрасный лоб

термометр, не нужно держать, можно повесить / двусторонний скотч / фиксированный кронштейн.

Большое количество дезинфицирующего средства 1000 мл может эффективно подавлять бактерии и эффективно предотвращать перекрестное заражение.

Sterilization is more effective
**K9 Automatic Temperature Measurement
& Disinfection Machine**

Safer without contact

**Automatic temperature measurement
and disinfection**

Effectively avoid cross infection

Align the temperature measuring probe and the liquid outlet
with the palm of your hand to detect the temperature and
automatically sterilize the liquid

Automatic alarm function

When the measured body temperature exceeds the preset
alarm temperature, the device will issue an alarm to remind
the surrounding people

Accurate measurement

accurate measurement, fast and efficient, stronger environmental adaptability

Large-capacity disinfectant used longer

1000ML large amount of disinfectant solution, effectively inhibit bacteria, the inhibition rate is as high as 99.9%. Effectively take care of you and your family's health

°C/°F temperature unit can be selected

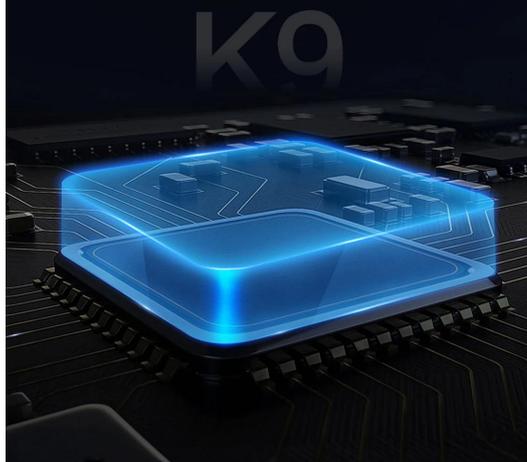

Switch easily

Self-developed core motherboard chip

High-performance, low-power self-developed motherboard chip greatly improves product stability and operating capability

The inner core is more powerful

Smart power saving & auto wake up

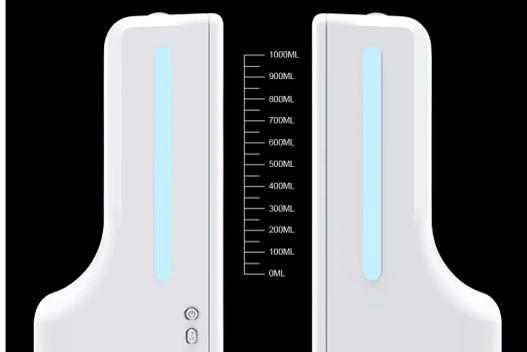

K9 has intelligent power saving and automatic wake-up function, which can save more resources

Low energy consumption, more economical

Visualization design of disinfectant

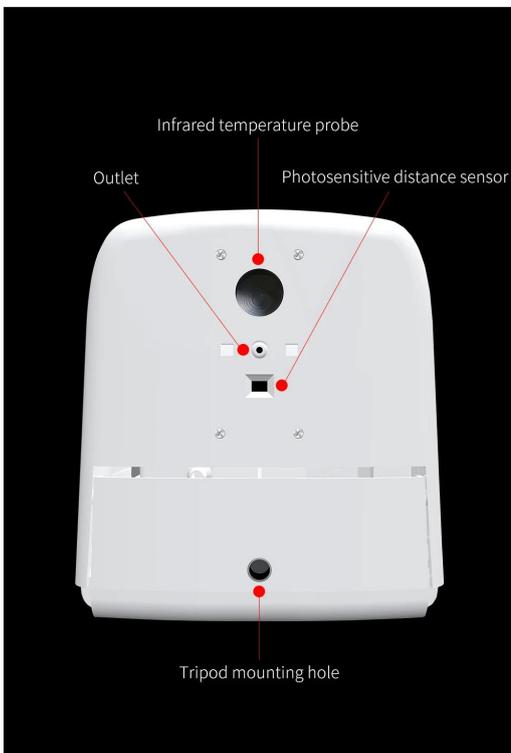

The side adopts a transparent design to visualize the use of disinfectant, and add liquid at any time according to the use

Exploded view

Concise appearance design

Box Contents

Technical Data

Accuracy	±0.2°C (34-45°C, put it in the operating environment for 30 minutes before use)		
Alarm type	Flashing + beeping "DIDI!"	Input	DC 5V 1A
Measuring distance	5cm-10cm	Product power	3W
LED display	Number	Liquid type	Hand sanitizer
Interface	USB Type-C Port	Advantages	
Bottle Capacity	1000mL		
Mounting Type	Wall-hanging, Tripod fixed	<ul style="list-style-type: none"> Automatic induction no-clean disinfection soap dispenser, more convenient to use 	
Working Temperature	8.10°C-40°C (15°C-35°C Recommended)	<ul style="list-style-type: none"> Large digital display, high-definition display 	
Measuring range	0-50°C	<ul style="list-style-type: none"> High-precision sensor, stable and reliable performance 	
Standby time	5s for non-working, dynamic loop with white dot	<ul style="list-style-type: none"> With intelligent point saving and automatic wake-up function 	
Dimension	119x132x280mm	<ul style="list-style-type: none"> Strong adaptability to environment temperature 	
Net weight	700g	<ul style="list-style-type: none"> Large-capacity soap liquid, longer life cycle
