The image shows a laptop screen with a web browser displaying a 'List of logs' table. The table is organized into 10 columns: Date, Time, User, Host, Source, Destination, Port, Protocol, Status, and Message. The data is presented in a grid format with alternating light blue and white rows. The first row shows a log entry for '1999-01-01 00:00:00' from '192.168.1.1' to '192.168.1.2' on port 80. The second row shows a log entry for '1999-01-01 00:01:00' from '192.168.1.1' to '192.168.1.2' on port 80. The table continues with several more rows of log data, including entries for '1999-01-01 00:02:00' and '1999-01-01 00:03:00'.
